Morrow, GA

July 27th, 2020

Work Experience

Achievements ABA

January 2022 – Present

Registered Behavioral Technician

Registered Behavioral Technicians (RBT) therapists utilize a behavior analysis method to provide behavioral improvement for children with autism and others with developmental challenges. RBT therapists provide guidance to patients with the intention of helping to alter those behaviors in an observable way through DTT and NET in an at-home setting. Gain instructional control to help children with autism access tasks and the world around them more cohesively.

Total Care ABA
